Our Safety Forum had an exciting and interactive presentation with Spekter K-9 school from Germantown on Dog Safety. They specialize in behavior modification including aggression rehabilitation, puppy training, protection discipline and obedience training. Jerry and Danyelle delivered a hands-on, interactive presentation with what to look for in a dog's behavior, what to do if and when you are confronted, how to read a dog's body language to see if they are happy, sad or even ready to attack. They discussed certain types of dogs that may be more volatile than others and helped us understand dogs and their reactions even better. It was a very interesting presentation. A video of this meeting will be up on NYSAR.com in the coming weeks.

With no other business, the forum was adjourned.
